THE LIFE OF THE MILK

N. E. Producers to Advance Price of Milk

FIRELICKERS TO ASK MORE

Dairymen, Meeting Here, Declare Conditions Make It Necessary to Advance Cost of Milk

Washington, Sept. 12.—The Department of Agriculture this afternoon announced that it would begin immediately a nation-wide investigation into the milk and dairy industry to determine whether improper practices are causing the threatened general advance in prices.

Boston's milk will cost more this winter.

Twenty directors of the New England Milk Producers' Association met at Young's Hotel today. They decided that the producers must get more for their milk. Then followed discussion as to how much more.

Increases ranging from one-half to two cents per quart were suggested. The New England Milk Producers' Association has branches in all the New England States. It represents a milk traffic of \$120,000,000 a year. Boston takes three-fourths.

SOURCES OF TROUBLE.
The crisis among producers has been brought about by recent legislation, doing away with the maximum price system which made it possible for Canadian farmers to send milk to Boston as cheaply as producers living much nearer the consuming center.

Changes in regard to milk cars have brought about complications affecting the price of milk and the cost of delivery.

There are no longer leased by large milk contractors, but are run and operated by the railroads.

With these and other changes, some of which are considered extra burdens on the farmers, have come problems in milk-making which need regulating.

Funston Asks Officers' Arrest for Mule Theft

San Antonio, Tex., Sept. 12.—Major General Funston today wired the war department asking the arrest and return to San Antonio to stand trial of Captains J. D. Walrath and Fred W. Laas, quartermasters of the First and Second Illinois regiments. He accuses them of failing to return to the army fifty government mules loaned to the Illinois militia.

"I'll try every militia officer on the border, if necessary," General Funston said, "to cure them of looting government property."

Net Earnings of Railways Show Big Increase

By International News Service.
Washington, Sept. 12.—Railroads of the United States rolled up enormous increases in net revenue in the fiscal year ending June 30, with a small increase in the cost of operation, the Interstate Commerce Commission announced today in a report showing earnings and expenses of 157 principal railroads.

The roads earned a net revenue of \$1,193,685,491. Total revenues were \$1,648,405,214 and operating expenses \$1,534,909,231. The net revenue per mile was \$12.14, as compared with \$11.63 the previous year. Freight earnings aggregated \$1,088,335,095, or \$18.33 per mile, as compared with \$17.75 in the preceding year.

The cost of labor and actual train movements constituted the largest outlay, amounting to \$1,093,625,026. In this class of operating expenditures the cost per mile was \$14.54, as compared with \$14.44 in 1915.

4,600 VOLTS KILL MALDEN LINEMAN

Edwin Davis of Malden, an Edison lineman, was electrocuted while shifting wires on a pole on Ames street in Dedham today. A short circuit sent 4,600 volts through his body. He fell across the wire. Edgar Cyr, working on the next pole, ran over and with him by cutting the wire without rubber gloves in order to get Davis' body down. Cyr and others worked an hour with a pulmotor to revive Davis, who was burned over the heart by the current. He was thirty-eight years old, married and lived at 21 N. Ripley street, Malden.

BRITISH TAKE \$10,000 FROM AMERICANS

By International News Service.
Washington, Sept. 12.—A Roman Catholic priest, an American citizen, declared that he saw the British authorities take \$10,000 in gold from him, were passengers on the Danish steamer Frederik, which was being held by the British at New York July 24, and was taken into Kew-Forest. The liner sailed from New York July 24, and was taken into Kew-Forest. The passengers received paper money for their gold.

Violence German Road is Cut

Blasting Dynamite Found in New York Subway, and Fourteen Riders Are Taken Into Custody

By L. V. B. RUCKER.
International News Service Staff Correspondent.
New York, Sept. 12.—Discovery in the Brooklyn section of the Interborough Rapid Transit Company's subway of a package, declared by an expert on explosives to be blasting dynamite, led the police to believe that an effort had been made by strike sympathizers to blow up the subway.

Traction officers have several times since the strike been expressed of fear that such an attempt would be made and the track-workers have been warned to be on their guard. The package was found early this morning about 500 feet from the Borough Hall station. It was lying just inside one of the rails where it might be hit by the flange on the wheel of a car passing above it. As soon as it was turned over to the police they called in a member of the staff of the bureau of combustibles. He immediately declared it blasting dynamite.

This was denied by an employee of traction company and the package was finally sent to the main office of the bureau of combustibles for detailed analysis.

Violence broke out during the middle of the forenoon today and increased hourly.

FOURTEEN ARRESTED.

The first disorder occurred about nine o'clock. Calls for police came in rapid succession thereafter and by 10:30 o'clock fourteen arrests had been made.

The most serious riot occurred at the intersection of Broadway and 14th street.

DENY CASEMENT AN IRISH GRAVE

Berlin, Sept. 12.—According to the Fremdenblatt of Hamburg, Roger Casement was buried at the side of a harbor in the Penton prison yard after his execution, but later his relatives obtained permission to disinter the body and bury it in Ireland. As the coffin was being taken aboard a steamer at Glasgow, however, the police halted it and presented a decree of the British government that Casement's body should not be taken to Ireland until a year after the war ends.

Braves Show New Life in the Opening Game of Double Header with the Chicago Cubs

By International News Service.
Paris, Sept. 12.—The French, upon learning that he was quartered in the chateau of the village of Temple La-Fosse, twelve miles from the French lines, trained a 12-inch naval gun upon the chateau and blew it to pieces with sixty-five shells.

Prisoners state that the first shell struck the right wing of the chateau, a few feet from the main room where the Kaiser's son was working with his staff.

The party jumped into automobiles as the second shell fell upon the roof.

2 WOMEN SAIL LEAKING BOAT TO PORT

Portland, Me., Sept. 12.—Maiden the accident-ridden boat which was carrying Captain Thurston of the coastwise schooner Herman E. Knox, and her mother, through the leaking vessel safely into Portland harbor early today, after eleven hours steady work at the wheel of a leaking boat.

From 8 p. m. yesterday until about 2 a. m. today Captain Thurston, his son James and their crew, Bert Westcott, bailed steadily against a leak.

During this time the ship's crew and their families slept without let-up. The spilled water oiled the wheel. But, when not at the wheel, they did not in the slightest building block and reinforced the men.

The Kimball is eighty-four feet long and built from Newport. The captain's wife has made many trips in it, and according to her husband, it is a good sailor as he is.

The Kimball sailed from Boston early yesterday with a cargo of phosphate for Newport. At 4 o'clock off Buzzards Bay, the vessel was sighted by a patrol boat from the United States Coast Guard.

At 4 o'clock off Buzzards Bay, the vessel was sighted by a patrol boat from the United States Coast Guard.

THIRD INQUIRY

Cuba—Reulbach tossed out William Vaughn, a young Danish military aviator, a young Danish military aviator, according to a Copenhagen dispatch, is planning to cross the Atlantic in an aeroplane of his own power.

Lieutenant Potter expects the duration of his contemplated flight from France Island to Newfoundland to be thirty hours and the whole trip to New York to take forty-eight hours.

NORWEGIAN SHIP HAS BEEN SUNK

By International News Service.
London, Sept. 12.—Maritime advice report that the Norwegian steamer Kong Ring, 1,411 tons, has been sunk.

Kaiser's Second Son in Death Peril When Shell Hits Chateau

By International News Service.
Paris, Sept. 12.—The Kaiser's second son, crown prince Rupprecht of Bavaria, was quartered in the chateau of the village of Temple La-Fosse, twelve miles from the French lines, trained a 12-inch naval gun upon the chateau and blew it to pieces with sixty-five shells.

Prisoners state that the first shell struck the right wing of the chateau, a few feet from the main room where the Kaiser's son was working with his staff.

The party jumped into automobiles as the second shell fell upon the roof.

BATTING ORDER

By John W. Moran, Jr.
Braves Field, Sept. 12.—With Rabbit Marvelli back at shortstop, and Dick Egan at second base, the Braves looked slightly more formidable in the opening game of today's twin bill.

The game, first inning.

Cuba—Zeller started with a triple between Wilhelm and Rudolph. Smith struck out. While Eiler was at bat, Reulbach made a quick throw to third. Thier called a ball which Eiler at first refused to believe, but finally changed his mind and allowed Zeller to tally. Eiler then drove a long fly to Wilhelm. ONE RUN.

Braves—Snodgrass out. Worman to snail. Wilhelm drilled out. Eiler and James and their crew, Bert Westcott, bailed steadily against a leak.

During this time the ship's crew and their families slept without let-up. The spilled water oiled the wheel. But, when not at the wheel, they did not in the slightest building block and reinforced the men.

MYSTERY OVER DOUBLE SHOOTING

Burlington, Vt., Sept. 12.—Miss Rose Willett, a girl of twenty-four, armed herself with a revolver about 7:30 today, walked down to the coal office of her brother-in-law, John Deyette, opened the scale window back of Deyette, fired two shots at him point-blank, missed with one, grazed his ankle with the other, then blew out her own brains with a third shot and fell dead on the scales.

Deyette says that he knows no reason for his sister-in-law's act. It is said that the girl has been talking of late about a conspiracy to put her away.

Miss Willett lived at No. 234 Main street with her mother, Deyette, who married her sister, Susan, on Monroe street. He is thirty years old. So far as known Rose Willett and Deyette had been on good terms. She had visited at his home, like any girl would come to her married sister's residence.

Deyette's coat laid in the front of Champlain street. The office arrangement, as it must and often, includes a small window, called the scale window, which opens on the big road on which the coal and wagon are weighed.

Strauss Completes Opera.
Berlin, Sept. 12.—Richard Strauss, the composer, has completed his new opera, "The Woman Without a Shadow."

THE GAME

By International News Service.
Washington, Sept. 12.—The game of the day was the football game between the Harvard and Yale teams, which was played at the Harvard stadium.

The game was a close one, with Harvard leading for most of the afternoon. The final score was Harvard 14, Yale 10.

The game was a close one, with Harvard leading for most of the afternoon. The final score was Harvard 14, Yale 10.

COUNT DE LESSEPS KILLED AT FRONT

By International News Service.
Paris, Sept. 12.—Count de Lesseps, son of the late Count Fernand de Lesseps, was killed at the front today. He was a member of the French army and was serving in the 101st regiment.

Count de Lesseps was killed by a bullet in the chest. He was 45 years old and was married to a French woman.

CARLSON LEADING IN COLORADO VOTE

Denver, Colo., Sept. 12.—Governor George A. Carlson led Samuel C. Nicholson by a slight margin for the Republican gubernatorial nomination in the early returns today.

Carlson, a Democrat, was opposed for the nomination for Governor.

MILLIKEN IN BOSTON, DECLARES ALL MAINE IS FOR HUGHES

Governor-elect Carl E. Milliken is confident that Charles E. Hughes will be the next President of the United States.

Today he was attending a meeting of the executive board of the Boston Baptist Missionary Society in the Ford Building. He was very enthusiastic over the Republican results in Maine.

"The Republicans would have had a larger majority in the election, but the smaller towns there was much misunderstanding about the closing of the polls," he said.

"Maine is just carried away by Hughes. Not only what he said pleased the people of Maine, but his appearance made a great impression. He certainly added much to my vote. When the presidential election comes off you will see Maine rallying once more."

Ban on Marriage of Divorced Is Now Episcopal Plan

If the recommendations of a commission consisting of five bishops and an equal number of clergymen and laymen are adopted by the Episcopal convention which meets at St. Louis next month, it will be impossible for any divorced persons to be married by an Episcopal clergyman.

Divorce, the laudable law of the church has alienated an exception in the case of the divorced party in certain cases. But this exception has been nullified against those who have been divorced. Many months must have passed before the granting of the divorce, and a copy of the court's decision and record had to be submitted to the bishop before any divorce might be granted. The commission is convinced more drastic action is necessary. It is increasing by leaps, especially in the case of the divorced party, who are becoming more numerous. It is becoming increasingly difficult to determine the innocence of either party.

HAMBURG AND LLOYD LINES TO COMBINE

By International News Service. Amsterdam, Sept. 13.—The Voortrekker Zeitung is quoted in a dispatch from Berlin as stating that after the war the German Lloyd steamship line will be combined.

ARMY FUNERAL FOR RHODE ISLANDER

Fortified from First Page.

Fourth avenue and Twenty-third street when a crowd, numbering 100, gathered to witness the funeral of a Rhode Islander who died at the Rhode Island Cavalry, who died at the Rhode Island Cavalry, who died at the Rhode Island Cavalry.

Both sides determined. The funeral was held at the Rhode Island Cavalry, who died at the Rhode Island Cavalry, who died at the Rhode Island Cavalry.

WOMAN THROTTLED BY THIEF IN CHELSEA

Miss Josephine Young was attacked at Chelsea and Essex streets, Chelsea, by a man who choked her and threw her to the ground. The body was found near the Chelsea station, and the man was arrested.

MEET FORCE WITH FORCE.

At a meeting of the central body of Greater New York at the Continental Hotel it was declared force must be met with force. Leaders charged that officials have failed to pursue orderly methods in their efforts to break the strike.

High Prayre, chairman of the conference announced that the parade and demonstration planned at First Street for Sunday will be held tomorrow.

The parade will start from Eighty-sixth street and Park avenue at 11:30 a. m. Officials of the American Federation of Labor and the Amalgamated Association of Electric Employees expect to have 15,000 striking workmen in line, in uniform.

The complete president of the American Federation of Labor will be the chief speaker if he returns from Washington in time.

The conference adopted a resolution condemning the circulation of a report of a "bitter quarrel between President Wilson and the railway officials."

The Public Service Commission has recommended that both sides agree to a truce in the street car strike and submit their differences to arbitration.

The recommendations of the commission and the Mayor follow: The question whether the distribution of the individual contracts constituted a violation of the agreement is referred to arbitration in the manner provided in the agreement.

That the parties proceed with the conference where they left off, and that in order that friction may be avoided they agree upon some impartial person to preside, and that the conference be held in public.

That the strike should be declared off immediately. President Shuman of the Interborough Rapid Transit Company has announced that he will not accept the recommendation of Mayor Mitchell and the Public Service Commission to call off the strike and arbitrate the differences between the railway companies and the labor union.

The plans of the commission to effect a settlement have failed, other methods were taken under consideration and it was reported that Mayor Mitchell would call Governor Whitman to call a special session of the Legislature to pass a law making arbitration compulsory in all labor disputes.

The Interborough absolutely refuses to have any further dealings with the strike.

Millionaires Rivals for an Abandoned Babe

By International News Service.

New York, Sept. 13.—From nothing but a rascal stowed in free clothing, a handsome and prospective millionaire is somewhat of a leap, but it is about to be made by a smiling two-week-old abandoned baby boy, waiting in Bellevue Hospital while Fifth avenue millionaires vie with each other to adopt him.

A shabbily dressed woman left the wail in the vestibule of the Fifth Avenue mansion of William Belmont, banker, while his wife, Mrs. Belmont, was entertaining a dinner party.

When a servant wanted to call the fellow into the dining room, and all the guests were anxious to adopt him, Mrs. Belmont said she would accept the baby. A dozen, other wealthy men and women declared they would if she did not.

CUPID IS BUSY AT PORTSMOUTH

Portsmouth, N. H., Sept. 13.—City Clerk Fred Drew did a regular land office business in the matrimonial line today. The first couple were from Portland. Malvin Bryan O'Brien, a teacher in the Portland schools, was married to Margaret Harlow, assistant librarian at the Portland Library. Hazel Black Jones of Portsmouth was married to Louis Plooy, an attractive young man of Portland, and Alfred Wrayman of Berlin, N. Y.

LABOR URGES PROTECTIVE TARIFF

By International News Service.

Springfield, Sept. 13.—At today's session of the annual convention of the Massachusetts Branch of the American Federation of Labor resolutions were adopted favoring a protective tariff and opposing prohibition.

Other important resolutions passed included a recommendation that Governor McCall run against Miss Mabel Gillespie in the minimum wage commission; that the union of the country get together with the farmers and endeavor to have wage-earners and farmers give a proportionate representation in Legislature; that the State establish a free university; and that labor use its efforts to get a progressive majority on the list of delegates to the proposed union constitutional convention.

The resolution that farmers and union men get together and pool their interests for better legislative representation was made by E. Gerry Brewer, who said that farmers now practically control our legislatures and make wages and abstract laws that too often have to be defined by the Supreme Court.

U. S. ATTITUDE MAY SCARE JAPAN

Washington, Sept. 12.—Official admission by the Japanese government of the demands made on China that Japanese military officials be put at the head of certain Chinese communities has spurred the State Department to further investigation of the Far East situation, which, officials say, may result in Japan never taking advantage of Chinese weakness through fear of displacing the United States. Minister Saito, in Peking and American consuls in Manchuria have been instructed to continue examining the situation and to report the effect the granting of the demands would have in China.

TRY LEYDEN RIOT CASES ON MONDAY

Lawrence, Sept. 12.—District Attorney Louis S. Cox plans to take up cases against the Mayor and members of the Riverhill City Council at the session of the Superior Court, which convenes here next Monday.

Mayor Albert L. Bartlett and the four Riverhill aldermen indicted for failing to attempt to suppress the riot growing out of the efforts of Ben Thomas Leyden, of Somerville to destroy an anti-Catholic meeting at Leyden hall last April demand a speedy trial.

PAGE EASY WINNER AT VERMONT POLLS

Burlington, Vt., Sept. 12.—The return of Carroll B. Page to the United States Senate was indicated early today when returns from about 40 per cent of the voting precincts gave the Vermont Senator a vote considerably larger than the combined total of his two opponents, Governor W. D. Fletcher and former Governor Allen W. Bates.

Hughes Rules Favorite in Betting Odds

BETTING on the outcome of the Presidential election was not materially changed by Mondy's crushing Republican victory in Maine. Conditions in various places are reported as follows:

West Street—Hughes supporters offered odds of 10 to 5 on his taking. Ten to eight with no Wilson money in sight was the offering Saturday.

Brooklyn—Fred Schuman has \$10,000 on place on Hughes at 5 to 5, but Wilson supporters want 2 to 1. He has \$2,000 on place at something better than even money that Hughes will carry New York State, and \$1,000 at 7 to 5 that Whitman will be re-elected.

Charleston, S. C.—Wilson still remains a slight favorite with little money being laid.

Omaha, Neb.—Betting at odds more or less low but Wilson at even money, which Wilson carries Nebraska.

Memphis, Tenn.—No large wagers made, although odds favor Wilson.

Denver, Colo.—Odds are 5 to 1 on Hughes; 1 to 3 on Wilson to carry New York State and 10 to 1 on Wilson will carry Colorado.

Philadelphia—No bets placed on length of Mr. Hughes' term. Number of offers of 2 to 1 on Hughes standing unchanged were withdrawn before returns came in Monday night and have not been renewed.

Seattle, Wash.—Odds even, with no Wilson money offered.

Harold P. Moseley Dead.

Westfield, Sept. 12.—Harold P. Moseley, former Representative and State Senator, died at his home early today. He was forty-four years of age and was a lawyer and a director in several local banks.

SAT SPRING-RICE SAVES SENATOR ON REPRISAL

By International News Service.

Washington, Sept. 12.—A military message is being sent westward today by automobile, in an attempt to prove that motor cars can average 31 miles an hour on a road-to-coast trip.

The message left Plymouth Rock, Mass., Monday, at 1:30 p. m. and arrived here by motor relay at 11:25 last night. A new car and driver was waiting the message here and immediately dashed for Milwaukee. The message was sent four and a half hours of its schedule.

The estimated time for the 2,300 miles is 120 hours.

BLAME CASTING FOR BRIDGE COLLAPSE

Quincy, Sept. 12.—Failure of a casting was responsible for the disaster of Monday when the central span of the new bridge across the St. Lawrence collapsed. It was officially stated today by Lawrence and Dominion Bridge Company that the failure of the casting on a lifting derrick on which the span had been resting with a great load for the last six weeks. The cast-iron arms were also injured and preparation are under way to replace the entire span.

Norfolk, Va., Sept. 12.—Lifting a target at 20,000 yards with 16-inch guns probably will put the United States navy above all other navies, according to naval officials. That is what the dreadnought Pennsylvania and Oklahoma did in Chesapeake Bay, according to advice brought ashore from the former ship.

The Pennsylvania scored more hits at 20,000 yards than did the Oklahoma, but the Oklahoma outdistanced the Pennsylvania at 25,000 yards.

WANT CONVENTION ON WATERWAYS HERE

With the active co-operation and backing of every representative civil organization in the State, the Massachusetts Commission on Waterways and Public Lands is to make a determined effort at the ninth annual convention of the Atlantic Deep-sea Waterways Association, which will be in session in Philadelphia for the next four days, to capture the 1917 convention for Boston. James B. May of Milton, treasurer of the Massachusetts State Committee, and ex-Con-

gressman William S. McHenry of South Boston, members of the Waterways Commission, left today to head the fight which will be waged on the floor of the Philadelphia convention for Boston.

SECOND BRIGADE READY FOR LONG HIKE

By BERT FORD.

El Paso, Tex., Sept. 12.—The entire Second Massachusetts Brigade is scheduled to start early today on a ten-mile hike. During the march the troops will be lured by officers representing General Frederick Johnston.

The hike is the first of the kind to be given the Bay State brigade under direct instructions from General Johnston. After today's march the regiment will be put through drill exercises.

Units of three and five to one were set today that the Bay State units would start for home not later than September 28.

Many felt that the hastening of the march meant an early start home for the Bay State troops. The "when do we go home" speculation has become so acute and widespread in the brigade and among the National Guard camps generally, that commanding officers are disturbed by it. The Massachusetts commanders think it has a demoralizing effect on the men who are planning to stay to fight that are not official.

Colonel Willis W. Stover of the 17th Regiment gave his officers orders to instruct the men that nothing official had been learned about when the troops would start home.

The Ninth Regiment has planned to start Saturday. A few days later to accept Colonel Logan's challenge for a series of horse and foot races by challenging the artillerymen to foot, hand and pole. The Ninth's orders are forming a burlesque polo team and are to use mules with their bridles or saddles and haling sticks.

Captain Greig and Lieutenant Rugg and Powers today succeeded in procuring an order from General Hall directing Lieutenant Colonel Davis of the First Massachusetts Field Artillery to supply them with the mule records demanded by Adjutant-General. Colonel Ruggman refused to give them, the data and ordered Lieutenant Colonel Davis not to give it when he left for Boston Monday night on a fifteen-day tour.

The much discussed and delayed election in the Winthrop Machine Gun Company is to be held Saturday, when a captain will be chosen.

FATHER O'NEIL LEFT ESTATE OF \$225,000

Worcester, Sept. 12.—The will of the Rev. Dr. Daniel H. O'Neil has been filed in Probate Court. During the thirty-four years he was pastor of St. Patrick's church, he never drew any salary, and in his will he waived all claims for the amounts due him. His estate, valued at \$225,000, is left to Bishop Heenan to be used for charitable purposes. His specific bequests include \$10,000 to Adeline C. Brown, for many years his housekeeper; \$500 to Miss Anne Hildner, \$100 for masses to be said by curates of St. Patrick's; \$500 each to St. Vincent's Hospital, Sisters of Mercy and Sisters of Notre Dame; \$200 to Sisters of Providence; and \$1000 each to James O'Neil of Schenectady, and John and Henry O'Neil of Woonsocket, R. I., cousins.

CALL FOR FUNDS TO DEFEND ALLISON

The Massachusetts Birth Control League, of which Professor Charles Doolittle is chairman, is seeking aid in appeal for contributions to a fund to defend Yon. H. Allison in the so-called "birth control case." The appeal is signed by Professor Doolittle and Miss Westcott, and follows: "We ask you to contribute to the defense of Mr. Allison in the upper court, both to prevent the affirming of such a severe sentence upon a young man of only twenty-two, whom we believe to have been convicted on technicality, and also to preserve the right of free discussion of such an important public question."

HARVARD MEN TO GET RANK IN ARMY

Besides the pursuit of an academic degree at Harvard during the incoming year there will be the opportunity to earn the rank of "temporary lieutenant" in the United States Army. Captain Constant Cordier, U. S. A., who was granted a master of arts degree by Harvard in June, has just been detailed to head the new military department which is to be established at Harvard for the first time this year.

Information to this effect has just been received in Cambridge by a telegram from the War Department to Harvard.

LEIGHTON HOUSE FINDING SATURDAY

Judge Joseph H. Barnes will on Saturday render his decision in the case of the town of Winthrop against Morris I. Green and his wife, Lena Green, charged with conducting the Leighton House at Winthrop Highlands without being licensed innkeepers or common victuallers. Attorneys for both sides will argue Saturday forenoon.

SEEK INJUNCTION TO PREVENT ODOR

Steps to secure an injunction against the plant on Spout Neck Island in an effort to prevent the offensive odor have been taken by C. E. Carlson of Rye Beach. An attorney has been retained. At the meeting of the Rye Beach Improvement Association the nuisance was protested and the action of Mr. Carlson enthusiastically endorsed.

HUNT WINS AGAIN IN ARIZONA CONTEST

Phoenix, Ariz., Sept. 12.—Governor George W. Hunt has been renominated by Arizona Democrats, according to latest returns from yesterday's primaries. Republicans nominated Judge H. H. Hildreth for the Senate. These were the only contests of any note.
